TABLE OF CONTENTS

NUMBER 1, MARCH 1982

Mayer, D & Schäfer, B, Biochemical and morphological characterization of glycogen-storing epithelial liver cell lines 1

Wiche, G & Baker, M A, Cytoplasmic network arrays demonstrated by immunolocalization using antibodies to a high molecular weight protein present in cytoskeletal preparations from cultured cells 15

Ducibella, T, Depolymerization of microtubules prior to compaction. Development of cell polarity and cell spreading are not inhibited 31

Frazier, R P & Costlow, M E, Prolactin stimulation of ornithine decarboxylase activity in cultured rat mammary tumors 39

Westermark, K & Westermark, B, Mitogenic effect of epidermal growth factor on sheep thyroid cells in culture 47

Vraná, D, Votruba, J & Placek, J, Age-related changes in the physiological state of budding yeast cells 57

McCormick, P J, Millis, A J T & Babiarz, B, Distribution of 100K Dalton glucose-regulated cell surface protein in mammalian cell cultures and sectioned tissues 63

Darmon, M, Stallcup, W B & Pittman, Q J, Induction of neural differentiation by serum deprivation in cultures of the embryonal carcinoma cell line 1003 73

Johnson, L F, Rao, L G & Muench, A J, Regulation of thymidine kinase enzyme level in serum-stimulated mouse 3T6 fibroblasts 79

Jones, A, Boynton, A L, McManus, J P & Whitfield, J F, Ca-calmodulin mediates the DNA-synthetic response of calcium-deprived liver cells to the tumor promoter TPA 87

Mukherjee, B B, Mobry, P M & Pena, S D J, Retinoic acid induces anchorage- and density-dependent growth without restoring normal cytoskeleton, EGF binding, fibronectin content and ODC activity in a retrovirus-transformed mouse cell line 95

Snell, W J, Study of the release of cell wall-degrading enzymes during adhesion of *Chlamydomonas* gametes 109

Kaska, D D & Gibor, A, Initiation of cell wall lysis in gametes of *Chlamydomonas reinhardi* by isolated flagella of the complementary mating type 121

Sato, T, Minamoto, Y, Yamane, I, Kudo, T & Tachibana, T, Spontaneous interferon production and growth of lymphoblastoid cells in serum-free medium 127

Obinata, A, Takata, K, Kawada, M, Hirano, H & Endo, H, Reversible inhibition by DMSO of hydrocortisone-induced keratinization of chick embryonic skin 135

Pegrum, S M, Contact relationships between chick embryo cells growing in monolayer culture after infection with Rous sarcoma virus 147

Hormia, M, Linder, E, Lehto, V-P, Vartio, T, Badley, R A & Virtanen, I, Vimentin filaments in cultured endothelial cells from butyrate-sensitive juxtanuclear masses after repeated subculture 159

Leandersson, T & Lundgren, E, Cell growth regulation during density inhibition and interferon treatment 167

Middlebrook, J L & Leatherman, D L, Differential sensitivity of reticulocytes to nicked and unnicked diphtheria toxin 175

Nagelkerke, J F, Barto, K P & van Berkel, T J C, Isolation of parenchymal cell-derived particles from non-parenchymal rat liver cell preparations 183

Douer, D & Koeffler, H P, Retinoic acid enhances colony-stimulating factor-induced clonal growth of normal human myeloid progenitor cells in vitro 193

Glenney, J R, Osborn, M & Weber, K, The intracellular localization of the microvillus 110K protein, a component considered to be involved in side-on membrane attachment of F-actin 199

Staufenbiel, M & Deppert, W, Intermediate filament systems are collapsed onto the nuclear surface after isolation of nuclei from tissue culture cells 207

Hanks, S K, Brown, D B & Rao, P N, Induction of premature chromosome condensation at high frequency following polyethylene glycol-mediated fusion of lectin-bound cells 215

Kuo, M T, Comparison of chromosomal structures isolated under different conditions 221

Springer, M W & Barondes, S H, Externalization of the endogenous intracellular lectin of a cellular slime mold 231

NUMBER 2, APRIL 1982

Ortwerth, B J, Wolters, J, Nahlik, J & Conlon-Hollingshead, C, Cell growth and $tRNA_4^{lys}$ synthesis in mouse 3T3 cells 241

Kaplan, A E, Yamaguchi, M, Tralka, T S & Hanna, C H, Ultrastructural differences between control and nitrosomethylurea-transformed cells of rat hepatocyte origin 251

Hayashi, J-I, Tagashira, Y, Yoshida, M C, Tosu, M & Sekiguchi, T, Stability of parental mitochondrial DNA species and expression of nuclear ribosomal RNA genes in mouse-rat hybrid cells 261

Halleck, M S & Gurley, L R, Histone variants and histone modifications in chromatin fractions from heterochromatin- rich *Peromyscus* cells 271

Darfler, J F & Insel, P A, Serum-free culture of resting, PHA-stimulated and transformed lymphoid cells, including hybridomas 287
Betz, H & Müller, U, Culture of chick embryo neural retina in serum-free medium. Expression of cholinergic proteins 297
MacDonald, C, Genetic complementation in hybrid cells derived from two metabolic cooperation-defective mammalian cell lines 303
Inouye, K & Takeuchi, I, Correlations between prestalk-prespore tendencies and cAMP-related activities in *Dictyostelium discoideum* 311
Stick, R & Krohne, G, Immunological localization of the major architectural protein associated with the nuclear envelope of the *Xenopus laevis* oocyte 319
Hudspeth, A J, The recovery of local transepithelial resistance following single-cell lesions 331
Garbi, C & Wollman, S H, Ultrastructure and some other properties of inverted thyroid follicles in suspension culture 343
Senechal, H, Schapira, G & Wahrmann, J P, Changes in plasma membrane glycoproteins during differentiation of an established myoblast cell line and a non-fusing α-amanitin-resistant mutant 355
Imai, K, Tanaka, A, Fujimori, K & Yamada, M–O, Association of neutral α-glucosidase with cytoplasmic granules of peritoneal macrophages 367
Ogihara, S, Calcium and ATP regulation of the oscillatory torsional movement in a Triton model of *Physarum* plasmodial strands 377
Buzard, R L, Hutchens, T W, Hawkins, E F, Markland, F S & Horn, D, Clonal variants of a melanoma cell line sensitive to growth inhibition by dexamethasone 385
Voss, P G, Steck, P A, Calamia, J C & Wang, J L, Growth control in cultured 3T3 fibroblasts. III. Binding interactions of a growth-inhibitory activity with target cells 397
Jongkind, J F, Verkerk, A, Visser, W J & van Dongen, J M, Isolation of autofluorescent "aged" human fibroblasts by flow sorting. Morphology, enzyme activity and proliferative capacity 409

PRELIMINARY NOTES

Yasin, R, Kundu, D & Thompson, E J, Preparation and characterisation of cell clones from adult human dystrophic muscle 419
Puvion-Dutilleul, F & Macieira-Coelho, A, Ultrastructural organization of nucleoproteins during aging of cultured human embryonic fibroblasts 423
Yeh, C-J G, Papamichael, M & Faulk, W P, Loss of transferrin receptors following induced differentiation of HL-60 promyelocytic leukemia cells 429
Anderson, L K, Stack, S M & Mitchell, J B, An investigation of the basis of a current hypothesis for the lack of G-banding in plant chromosomes 433
Briles, B E & Haskew, N B, Isolation of cloned variants of a rat hepatoma cell line with altered attachment to collagen, but normal attachment to fibronectin 436
Rieber, M & Rieber, M S, An effect of fibronectin in epidermal growth factor (EGF)-stimulated membrane protein phosphorylation in human carcinoma cells 441
Honegger, T G, Effect on fertilization and localized binding of lectins in the ascidian *Phallusia mammillata* 446
Janero, D R & Barrnett, R, Membrane biogenesis in *Chlamydomonas reinhardl* 137$^+$. Cell-cycle variations in the synthesis of phospholipids of non-photosynthetic membranes 451
Boynton, A L, MaxManus, J P & Whitfield, J F, Stimulation of liver cell DNA synthesis by oncomodulin, an MW 11 500 calcium-binding protein from hepatoma 454
Grond, C J, Derksen, J & Brakenhoff, G J, The banding pattern of the segment 46A–48C in *Drosophila hydei* polytene chromosomes as studied by Confacal Scanning Light Microscopy (CSLM) 458
Waterborg, J H & Matthews, H R, Control of histone acetylation Cell-cycle dependence of deacetylase 462
Carlin, C R & Rao, K W, Sequential staining with Hoechst 33258 and quinacrine mustard for the identification of human chromosomes in somatic cell hybrids 466
Van der Veer, E & Bootsma, D, Repair DNA synthesis in heterokaryons during reactivation of chick erythrocytes fused with human diploid fibroblasts or HeLa cells 469
Jeter, J R, Cameron, I L, Hart, N E & Rusch, H P, Cell cycle-related transfer of proteins between the nucleus and cytoplasm of *Physarum polycephalum* 474
Grady, L J & Sanders, M L, The order of DNA replication in mammalian cells. A modified density labelling procedure for isolating sequences replicated at specific times 480
Nishiyama, Y, Maeno, K & Yoshida, S, Correlation of increased nuclease activity with enhanced virus reactivation 485
Boitani, C, Cossu, G, Bouche M, Molinaro, M & Pacifici, M, Changes in protein and glycoprotein biosynthesis during differentiation of satellite cells in vitro 489
Jetten, A M, de Luca, L M & Meeks, R G, Enhancement in "apparent" membrane microviscosity during differentiation of embryonal carcinoma cells induced by retinoids 494
